

# Poster Printer Instructions for First-Time Users

1. Log into the computer and use the search bar in the lower-left corner to search for an app called HP Click.
2. User License Agreement Page should open. Check the box to accept the Agreement. Hit next to continue.
  - a. You do not need to supply your email.
3. Pages will appear explaining how the app and printer work. Click through them and hit Done to continue.
4. Autodetecting for the printer will occur. Let it run through and wait for the options on the bottom to appear. Select 'One more thing'.

5. Make sure all boxes are checked and the units selected are Inches. Select Get Started.
6. You are now able to drop files into the program and print your poster.
7. Resize your document as needed but ensure your image quality will not suffer from the increased size.

8. Turn on Vertical trimming from the Printer Options

- Log out when done.
- Contact student assistance at the library circulation desk for help.
- Will only need to search HP Click in the future to be able to print.
