

## Kaltura – Watch.ABAC.edu

### What is Kaltura

- Kaltura is an online educational video platform branded as [Watch.ABAC](#) for ABAC use.
- The ABAC community can use it like YouTube to upload and watch content specific to ABAC.
- Video creation tools are provided to assist students and faculty in creating engaging content.

### How to access

- To access the platform, go to [watch.abac.edu](#) or
  - Through the [My.ABAC](#) portal
  - inside GeorgiaVIEW
  - “KMS (Kaltura Media Space) Go” app on your phone or tablet.
- In GeorgiaVIEW: click on “More Tools” and find either My Kaltura Media or Kaltura Course Media
  - **MY KALTURA MEDIA** is used to show all videos that you have uploaded to Kaltura or start a new recording.
  - **KALTURA COURSE MEDIA** is used to access course videos uploaded by instructor.

### Features

- **KALTURA CAPTURE:** a desktop and web camera recorder which enables video creation anywhere by both professors and students.
  - Download the app to start recording.
  - Choose to capture two video sources and one audio source.
  - Click the red button to start recording.
  - Use annotation tools in the toolbar to enhance your content.
- **QUICK CAPTURE:** Online web camera and audio capture for quick video responses
- **AUTOMATIC MACHINE CAPTIONS:** All content is automatically machine transcribed to provide captions. Results vary but captions can be edited for accuracy.
- **KALTURA EDITOR:** Edit your content quickly online with trim, slide inserts, video hotspots (links) and more.

### Training and Tutorials
